Overview

I'm a passionate and detail-oriented Web Designer with over 8 years of experience creating clean, user-friendly, and visually appealing websites and web applications. I combine strong technical skills in HTML, CSS, Bootstrap, Scss, Tailwind css, JavaScript, Angular, and design tools like Adobe Creative Suite, Figma, and Adobe XD.

I have a solid track record of solving design, performance, and accessibility challenges, while ensuring clean, W3C-compliant and SEO-friendly code. I'm highly experienced in responsive design and applying UX/UI best practices to deliver smooth, engaging digital experiences. With expertise in Angular, I build reusable components and can resolve design issues across any platform. I work well with cross-functional teams and enjoy building interfaces that meet client satisfaction and business goals.

Main Skills

- **Front-End Development:** Expert in responsive and cross-browser front-end development using HTML5, CSS3, SCSS, Bootstrap, JavaScript, jQuery and Angular(designing and creating reusable component).
- **User Interface (UI) Design:** Crafting clean, intuitive, and visually compelling interfaces using modern design principles.
- **User Experience (UX) :** Focused on delivering accessible, user-centered digital solutions that align with business goals and improve usability across devices.
- **Design System & Atomic Design:** Implementing scalable design systems and component-based design frameworks for consistency and team collaboration.
- **Accessibility & Performance:** Ensuring WCAG compliance, SEO optimization, and performance tuning for a better user experience.
- **WordPress Development:** Comfortable with theme customization, basic dynamic content setup, and integrating common plugins using PHP and WordPress.
- **Graphic Design:** Proficient in creating marketing assets such as banners, brochures, and posters with Photoshop and Illustrator.

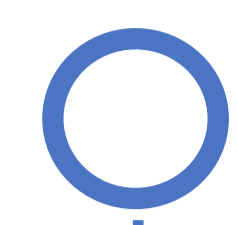

Work Experiences

Aug 2025 - Continue

NZ I TECH DOT NET SDN. BHD.

Primary Responsibility:

- HTML Template Integration using HTML5, Tailwind CSS, Bootstrap, Angular

Frontend Developer

Converted Figma designs into responsive Angular 20 templates with HTML & Tailwind CSS. Developed reusable UI components, maintained clean code standards, and delivered high-quality product features focused on user experience and performance.

- Bootstrap, Tailwind CSS
- SCSS/SASS
- JavaScript, jQuery
- PHP, WordPress, Angular
- Adobe Photoshop & Illustrator
- Figma, Adobe XD
- PhpStorm, Visual Studio Code
- GIT, Zira

Sr. Web Designer

As a Senior Web Designer at Primetech Solutions, I handle the complete oversight of digital design projects, from initiation to delivery. I meet with clients to understand their goals and brand values and their audiences, creating seamless user experiences for the web and mobile. Collaborating closely with managers and developers, I create consistent designs and alignment, conduct user testing, and address all client needs.

I directly handle the integration of HTML templates into various platforms such as Angular, PHP, .NET, and WordPress, working closely with developers throughout the process. This is one of my key specialties, where I make sure the integration runs smoothly across all platforms. I focus on addressing any potential compatibility issues, meeting any extra requests that come up, and solving responsive or functional problems to ensure everything works seamlessly across different browsers. I also optimize assets, find solutions to resolve integration conflicts, and collaborate with the development team to ensure the design remains consistent while meeting performance standards.

Additionally, I create graphical content such as banners, brochures, and posters using Photoshop and Illustrator. My technical expertise includes HTML, CSS, Adobe Creative Suite, and Figma.

March 2017 - Jan 2019

Encare International

Primary Responsibility:

- ▶ HTML Template Integration
- ▶ Issue Detection & Resolution
- ▶ Asset Optimization
- ▶ Graphical Content Creation
- ▶ Content Management (WordPress)
- ▶ SEO & Keyword Research

Tools & Languages:

- ▶ HTML5, CSS, Bootstrap
- ▶ jQuery
- ▶ Google Analytic
- ▶ WordPress
- ▶ Adobe Photoshop & Illustrator
- ▶ Sublime text

Jr. Web Designer

At Encare International, I was responsible for supporting the full lifecycle of in-house website design and maintenance. My role involved creating responsive layouts using HTML, CSS, Bootstrap, JavaScript, and jQuery to deliver user-friendly interfaces. I also designed visual content such as banners and graphics to enhance brand presentation. In addition, I managed SEO implementation such as offsite and onsite SEO, conducted keyword research, monitored website performance using Google Analytics and Google Search Console, and maintained eCommerce product listings to ensure optimal visibility and functionality.

My work included ensuring W3C-compliant code, SEO-friendly structures, and optimized image assets for performance and accessibility. I also played a key role in troubleshooting cross-browser conflicts, refining user experiences, and maintaining design consistency across projects.
